UTILITIES AND ROADMAP

Our **NFT World** consists of many attractions that will showcase a more immersive experience. It will allow visitors the opportunity to take advantage of all the utility the Nonconformist Ducks ecosystem has to offer. This will unlock the ability to earn **\$WRLD** tokens in various ways that will be exchangeable for **ETH**. More info can be found on Discord channel [#Pondmap](#)

DUCKWARDS

It's time to reward our beloved ducks for all the love they show everyday on all social networks. Duckwards is a platform that **rewards 5-10%** of secondary sales to ducks that, in addition to being committed to the project, actively help spread the Nonconformist Ducks brand. This will be claimable on a month basis.

CONDITIONS FOR RECEIVING DUCKWARDS:
OG (Original Collection) & Hell Ducks: Have a Nonconformist Duck PFP (OG or Hell) or have a Nonconformist Ducks banner or Torture Room in addition to not having ducks listed. Other community banners are allowed so long as a minimum of 2 Ducks are present in the front.
2nd GEN Ducks: Same conditions but only Golden Ducks are eligible for Duckwards

Is it worth signing up?
It should be noted that in addition to being a system that rewards owners, it is an excellent marketing platform that allows exponentially multiplying the reach of the brand, attracting new members to the project through massive reach on social networks.

What happens if I don't claim my Duckwards?
You will have until the next period to claim your reward but in the event that you do not do so, 100% of the amount will be destined to the wallet with the funds to fulfill the dream of the island.

Is the reward per wallet or per duck?
The reward is per duck.

Multiple NFT Worlds land has been purchased. This is where the core of the P2E elements and unique immersive experiences will be implemented. Sandbox land has already been purchased for additional buildups and a store of value. The Ducktickets are already in the process of building our worlds.

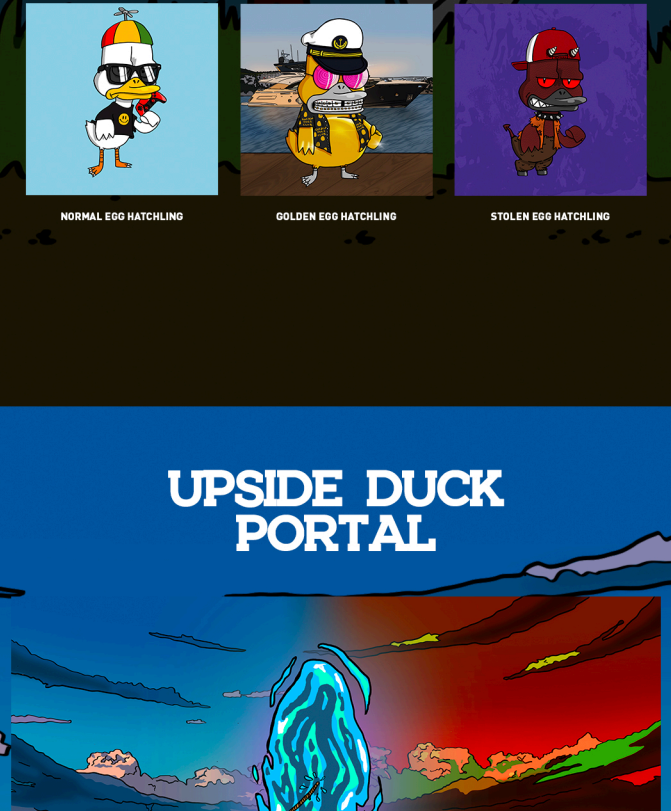

GOLDEN, HELL, CRYSTAL AND NORMAL EGGS

Those who held **40 OR MORE** ducks and/or Hell Ducks (any combination of both) received a Golden Egg. 1 for every 40 held. The Golden Eggs are part of the Nonconformist Ducks 2nd Gen Collection. A total of 93 special eggs were created. 90 Golden, 2 Hell Eggs and 1 Crystal Egg. The assignment of eggs was completely random except for the 2 Hell Eggs that were awarded to those who used the most Hell Ducks to qualify for the Golden Eggs. OG (Original Collection) Ducks are able to lay eggs. Their fertility, or ability to produce eggs, is **reduced by 50%** if listed for sale. Hell Ducks all have a chance to steal eggs. Thief traits and Metadata backgrounds specifically all have an even higher chance to steal. **Any listed ducks cannot steal.** A Randomly timed snapshot is taken and then the eggs are airdropped this is done approximately on a monthly basis, times can vary.

DUCK MIGRATION

There was roughly a 3 week window (currently ended) where minting certain amounts of Ducks earned you an airdrop of special luggage. The type of luggage received depended on how many were minted.

That suitcase will contain everything your Duck needs to get through this harsh winter, it can be **used and once** upon their return after March 30th at 3 P.M. EST 2022 on your favorite Duck World from the original collection. They say that the holidays transform you, but we will have to wait a little longer to find out. The suitcases have already been sent to those who've qualified. They can be seen on OpenSea under **"Nonconformist Ducks Rare Items"**.

3 jetpacks were seen in this collection too, some Nonconformist Ducks that didn't get tickets invented an internal machine to fly further than anyone else. **1** was auctioned to the highest bidder on OpenSea. **1** was sent to the Nonconformist who minted the most Ducks while the migration window was open. **1** was given through an exclusive draw for Duck Holders.

All 3 jetpacks destinations have been picked by their respective owners. Unfortunately one duck went missing after the takeoff, the search for answers remains ongoing.

HELL DUCKS

For a 1 week period during last Thanksgiving (2021), the oven was opened and the community was allowed to scorch their Nonconformist Ducks. This burned the original Duck and created the limited amount of Horseducks viewable in the Nonconformist Hell Ducks collection on OpenSea. All Ducks that have reached Hell through the oven have received some modifications and the insignia of the "Horseducks of the Apocalypse".

OG Ducks: The original ducks, all ducks that have been minted that have between 5 and 7 traits except for royalty.
4T Ducks: the marginalized, the ones that nobody wants and everyone lists, the ones that nobody presumes in their PFP. The nonconformists who one day will take the pond.

UPSIDE DUCK PORTAL

Mechanics of how to pass through the portal to become an Upside Duck:

What you'll need:

- **One 2nd Gen Duck** to open the portal (these don't burn and can be used only once)
- **One OG Duck and One Hell Duck** with the same amount of traits (both will burn)

Who can pass:

- 4T (all)
- 5T (600)
- 6T (353)

What you'll get in return:

- 6T Upside Duck according to the following criteria:
 - Perfect Match: A class duck (1-1)
 - Matching 3-4 traits: B class duck.
 - Matching 0-1-2 traits: C class duck.

Why are the all 6T?
Let's just say it was the dream of a dying old man. The Upside Ducks will have their own specific roadmap as well as their own unique utility

NFT WORLD

Our NFT World gets closer to completion with each passing day. As you'll notice on the map, there are many sections that will offer plenty of utility for your ducks, some even allowing certain traits additional utility. Your ability to earn \$WRLD in various P2E capacities, staking and renting is plentiful within our ecosystem. Please see the attached for all the details.

P2E WHITEPAPER

1-1 SPECIALS

A raffle of a new 1/1 Duck happened once every 1000 mints. For example, minted Ducks from 1000 to 2000: if you minted 10 Ducks in that range, you would have 10 tickets automatically entered in the raffle. Every Duck minted was one ticket for the raffle.

CHARITIES, GAMES AND EVENTS

These events happen fairly frequently so please pay attention to the announcements. The last community member **won a 1/1 RoboDuck**.

DUCK RACES

Run daily at 9:30 P.M. EST
 Enter in channel [#ducklympics](#).
 Only allowed to enter **1 duck**, make sure to name them.
 Can re-enter AFTER the race for the following day's race.
 Race will be displayed "live" in video format in channel [#the-pond](#).
 Depending on how many entries are received, races may be split into semi-finals, finals.
 Grand **DAILY** winner receives a prize.
 Daily scores are tallied for a **MONTHLY** race so if you score any points be sure to use the same Duck and name so your points get carried forward.
 After the daily races be sure to stick around as the action is only just getting warmed up. Many other types of games are played for **FREE T-shirts** or other random prizes.

NUMBERS

Be the first one to guess a specific number usually between 1 and 10,000, enter as many as possible until time expires.

Rarity Sniper & Rarity Tools

To check where your Duck ranks in the Pond. You may visit rarity.tools or raritysniper.com. We emphasize once again that rarity in this project is secondary since the non-conformity of our ducks allows them to evolve through different actions such as the oven or migration.
